The Commander's Welcome Speech

The Commander's Welcome Speech

Welcome aboard the Chu Oi LMS Starship, my brave young astronauts!

I am your Commander-in-Chief, and together with our teacher navigators, I am delighted to launch you into an exciting year-long English adventure across the cosmos. Our mission this year is clear and inspiring: "Aim High, Reach for the Stars!"

On this ship, every English word you speak becomes rocket fuel. Every story you read lights up a new galaxy. Throughout our voyage, you will explore the Planet Story Quest, create rainbows in the Rainbow Nebula, play word games at the Cosmic Arcade, and even fly on an Interstellar Kindness Mission to share love with others. You will be trained as future captains, discover your many talents, and celebrate those who reach the brilliant KET Constellation.

As we journey together, remember this guiding truth from God's Word, "Let no man despise thy youth; but be thou an example of the believers, in word, in conversation, in charity, in spirit, in faith, in purity." (1 Timothy 4:12)

So fasten your seatbelts, believe in yourself, trust your crew, and prepare for lift-off. Speak boldly, help one another, and never fear making mistakes - because every great astronaut learns by trying.

Remember: the stars are not the limit. They are our destination!

3, 2, 1... Blast off!

Your Commander,
Principal Wong Fung Yee
Chu Oi LMS Starship

"Say hello to our Navigators!

They are ready to lead you through the English galaxy. Their top mission tips for you: Speak boldly, read widely, embrace mistakes, and let your unique voice light up the universe!"

Meet the Navigators

Mr Daniel

Hello everyone,

I am Daniel, and I'd like to share a little story with you.

When I was 16 years old, I didn't finish secondary school. I left school to work as an electrician. After working for four years, I realized I wanted to go back to school to learn more. So, at 21, I returned to secondary school. I studied for two years and then went on to university, where I had many great adventures while learning.

My advice to you is this: while you are studying and learning, it is important to try your best and never give up. You can achieve great things in life. The world is a big place. Aim high—aim for the sky, aim for the stars! You can do it!

Miss Zoe

Hello everyone, it's Miss Zoe! Teaching and getting to meet you all have been wonderful! Always keep practising English, I know it's hard, but it's rewarding. It's okay to get it wrong as long as you tried! Thank you all for being so kind, patient and funny. Good luck for your future!

Meet the Navigators

Miss Lisa

Hello everyone, I am Miss Lisa. I can't believe how fast the year has gone by! It has been such an amazing year, and I have had so much fun spending it with you all. I will truly miss all of our jokes (especially Tony in P4), our fun conversations, and all the games we played together. Good luck to you all for the upcoming school year! My advice to you is to borrow more English books from the library. Read aloud to yourself at first to practice. As time goes by, start reading to other people, like your family or friends. You can also try having conversations in English when playing with your friends at recess so you can all learn and grow together. Always remember that you can do anything you set your mind to! Just make sure you work hard and listen to your teachers.

Mr Fungai

Dear students,
Wow, what an amazing year we've had together! I have loved every single lesson with you, and I am so proud of how hard you have worked and how much you have grown. You have made me smile every single day, and I will never forget your kind hearts and bright faces. Chu Oi (L.M.S) has been a wonderful place to be a teacher, and that is all because of you! Thank you for the best year ever. Keep reading, keep practising, and always believe in yourselves... you are all superstars! With so much love,
Mr Fungai

QUEST COMPLETED! STARS AND CELEBRATIONS

Our starship landed on Planet Story Quest for English Fun Day! To find the Bethlehem Star, astronauts conquered the Obstacle Course and built strong 'zig-zag' paper bridges. We celebrated our victory with delicious Christmas treats and loud shouts of **'BINGO!'**

Newsletter

Planet Story Quest - English Fun Day

English Fun Day Sparkles with Magic and Merriment !

On English Fun Day, all the English Ambassadors and teachers transformed into beloved characters from classic children's stories, stepping into the spotlight in their stunning, creative costumes. From fairy-tale heroes to whimsical friends, our beautiful outfits brought the magic of storytelling to life and delighted everyone on campus.

Students enthusiastically dived into a wonderful variety of English activities, including crafting colourful Christmas trees, solving challenging puzzles, hunting for words in an exciting word hunt, conquering a lively obstacle course, making delicious Christmas treats, and participating in the imaginative Story Mastermind session.

The day was filled with laughter, creativity, and learning. A joyful reminder that learning English is truly fun!

NEBULA OF MANY TALENTS (MI LESSONS)

Entering the Nebula of Many Talents!

Our MI lessons scaled new heights this year. Through puppet shows, inspiring presentations, and career exhibitions, students confidently showcased their learning outcomes and language talents in real-world scenarios.

Newsletter

The Nebula of Many Talents - MI Lessons

The Multiple Intelligences (MI) curriculum has become even more enriched, encompassing themes such as family, environmental protection, culture, and career exploration, while seamlessly integrating values education. Through puppetry, presentations, and career exhibitions, students showcased their learning achievements in authentic settings, confidently unleashing their linguistic talents.

Students participated in an English "Treasure Hunt" activity. Through the process of puzzle-solving and code-breaking, they consolidated their vocabulary usage, finding joy in learning through games.

In the inquiry-based learning project themed "My Dream School," students re-examined the campus environment, closely linking English learning with their daily lives.

Students collaborated in small groups to study and discussed the script (left), and performed mock practices under the teacher's guidance (right). This not only enhances students' English oral fluency but also fosters a great team spirit.

Preparing "Healthy Eating" snacks can also turn into a fun and natural English lesson! Students spontaneously applied English while selecting ingredients.

"This is our own healthy recipe!" Students confidently introduced their creations in English.

THE COSMIC ARCADE (ENGLISH AMBASSADORS)

Welcome to the **Cosmic Arcade**! Our stellar English Ambassadors held an exciting English gaming station. By hosting fun word matches and space challenges, they helped fellow astronauts refuel their language energy!

STAR-CAPTAIN ACADEMY

(LEADERSHIP WORKSHOP)

Future leaders entered the **Star-Captain Academy!** Through exciting team challenges, our senior astronauts mastered communication and trust. They learned how to guide their crew through cosmic storms with true responsibility.

Newsletter

Leadership Workshop: Building Teamwork and Friendship

In the exciting Leadership Workshop, we discovered the true meaning of teamwork through fun and challenging hands-on activities.

One of the highlights was constructing a sturdy bridge using only spaghetti and marshmallows. With steady hands and creative minds, we then carefully rolled an egg across our bridge, testing its strength and their collaboration. Other thrilling tasks included cup stacking with teammates using only a rubber band, and working together to pass a ball successfully.

The atmosphere was filled with laughter and energy as we felt truly excited and engaged. Through these activities, we learned valuable skills in effective communication, collaboration, and supporting one another.

Everyone left the workshop feeling inspired and hopeful for more opportunities like this in the future!

STEM RAINBOW POWER NEWS!

"Welcome to the Rainbow Nebula! In our STEM Workshop, young astronauts discovered the science of light by making their own beautiful rainbows. By exploring reflection and colour blending, they powered up our ship with bright, scientific wonders!"

Newsletter

STEM Rainbow Experiment: Creativity, Science, and Perseverance Shine!

At our exciting STEM event, we took part in a colourful hands-on experiment — creating our very own rainbows using salt, water, and food colourings.

It began with learning the seven colours of the rainbow and understanding how rainbows are formed in nature. We then explored the properties and characteristics of different materials. Finally, we put our knowledge into practice by carefully mixing the ingredients to produce beautiful rainbow patterns.

Through trial and error, we persisted with determination and successfully created our own stunning rainbows! The activity was a wonderful reminder that perseverance and strong problem-solving skills are the keys to success.

INTERSTELLAR KINDNESS MISSION (KINDERGARTEN SERVICE)

"On April 23rd, our crew completed a **special Interstellar Kindness Mission**. We visited the Kindergarten Planet, sharing joyful English picture books and playing fun games. We learned that true stars always serve others with love!"

Newsletter

Kindergarten Story Adventure: Spreading Joy Through Reading

In April, we had a heartwarming opportunity to visit a local kindergarten alongside our Native English Teacher, Mr. Daniel. Together, we brought the interactive story Miss Mei's Big Adventure to life for the eager kindergarteners.

We enthusiastically acted out the magical scenes, taking the young audience on a delightful journey through Hong Kong landmarks — from riding in a taxi and crossing the harbour on a Star Ferry, to exploring a bustling market, savouring dim sum, and enjoying a vibrant lion dance performance. Our lively acting and expressive storytelling had everyone laughing with delight.

The session continued with fun questioning and interactive games related to the story, creating a memorable and engaging experience for all. Through this special visit, we beautifully shared the joy of reading and learning beyond the classroom.

THE KET CONSTELLATION (CAMBRIDGE EXAM RESULTS)

"Mission accomplished! The Chu Oi LMS Starship has reached the KET Constellation. Giant congratulations to our brilliant astronauts who achieved 'Grade A' in the Cambridge Exam! You proved that when you aim high, you can truly catch the stars!"

Cambridge KET Success: Our Students Shine Bright!

In December, a group of dedicated P4 to P6 students from our school sat for the Cambridge Key English Test (KET), an internationally recognised examination designed to assess their English proficiency.

We are thrilled to announce that the results were outstanding! Twelve students achieved Grade C, thirteen students earned Grade B, and five outstanding students attained the highest honour — Grade A, a level equivalent to that of junior secondary students. Congratulations to all our successful candidates on this remarkable achievement! Your hard work, determination, and commitment have truly paid off.
